

# **DANGEROUS. RACIST. ILLEGAL.**

## **TOXIC SKIN LIGHTENING CREAMS.**

Across the globe, women of color are sold skin lightening products to uphold racist beauty norms. We tested creams sold on Amazon and eBay, and found that 15 had illegal levels of mercury. Mercury — a toxic and dangerous ingredient — is NOT listed on any of the products labels. Online retailers must stop selling these products globally, and put in place safety protocols to ensure they remain off the sites, for good.

**Amazon and eBay,  
stop selling these products.**
